

Welcome to the Netherlands! As a newcomer to the Netherlands, you're probably wondering about the possibilities of getting a job. Maybe you've even already taken the first steps, but can't manage without help. Here, you can read what MidZuid, the social work company for the municipalities of Oosterhout, Drimmelen, Geertruidenberg and Altena, can do for you.

How can MidZuid help you?

- Work experience: MidZuid can help with a learning programme where you can acquire skills and work experience. We can also put you in touch with employers. Even if you don't quite speak the language well enough yet, we can still help you.
- Guidance: The work culture in the Netherlands may not be the same as in your country of origin. MidZuid can guide you through this. How do you write a job application letter? What should you expect in a job interview? What should you expect of your employer, and what will they be expecting of you?

Contact

In the Netherlands, we strongly believe in equal opportunities for all, regardless of your background, abilities or the challenges you face. MidZuid is there to support you in making your goals and dreams a reality. Feel free to get in touch, and let's see how we can help you!
